It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

THE publication of the Report of His Majesty's Commissioners appointed to "Inquire into the Revenues and Patronage of the Established Church of England and Wales," has furnished valuable materials to the Editor of the *Clerical Guide*, and enabled him to offer, in the present Edition, more correct and authentic information than in any former impressions of the work. There are some new features in this Edition, the principal of which consists in the recent valuation of the Dignities and Benefices, founded on an average of three years ending Dec. 1831: but it is particularly to be observed, that the *net revenue* stated is *subject to deduction* for stipends paid to curates permanently fixed, or for any temporary services performed. The following instance is submitted:—

"In the case of Leyton Vicarage, with Leytonstone Chapelry annexed, in the county of Essex, the net revenue furnished is £534; but there are two Curates engaged, whose stipends amount (as it appears from the Report of the Commissioners) to the sum of £286, leaving an amount of under £250 for the Incumbent himself."

Besides the population, the present Edition furnishes the accommodation afforded in the Churches and Chapels, for the use of members of the Established Church. The alarming disparity between the two returns cannot but strike with the deepest regret every well-wisher of our pure and Apostolic Church; and it is to be fervently hoped that the day is not far distant when this *national* grievance will more fully engage the attention of the Legislature, and meet at all events with some remedy.

To the names of the Incumbents and Patrons is now added a list of the *Impropriators*, and several extremely useful Tables have also been introduced.

The Editor here wishes to express to his numerous Correspondents his best thanks for many suggestions kindly proffered for the improvement of the Work, and for corrections and alterations furnished by them, of which he has gladly availed himself wherever practicable.

BATHURST.

The above commission was renewed for the term of another year by letters patent, dated the fifteenth day of July, in the fourth year of His Majesty's reign, and extended to the Islands of Jersey and Guernsey, and the Isle of Man.

And by letters patent, dated the fifth day of July, in the fifth year of His Majesty's reign, the same commission was prolonged for the term of another year from the date thereof.

REPORT

OF THE COMMISSIONERS APPOINTED BY HIS MAJESTY TO INQUIRE INTO THE ECCLESIASTICAL REVENUES OF ENGLAND AND WALES.

TO THE KING'S MOST EXCELLENT MAJESTY.

Your Majesty having been pleased to issue a commission under the Great Seal, dated the 23rd day of June, in the second year of your Majesty's reign, authorizing and directing the Commissioners therein named to make a full and correct inquiry respecting the Revenues and Patronage belonging to the several Archiepiscopal and Episcopal Sees in England and Wales, to all Cathedral and Collegiate Churches, and to all Ecclesiastical Benefices, (including Donatives, Perpetual Curacies and Chapelries,) with or without Cure of Souls, and the names of the several Patrons thereof, and other circumstances connected therewith.

And Your Majesty having been further pleased, on the expiration of the said commission, to issue a Second Commission, extending the period within which the said Commissioners were required to make their

final report, and authorizing them to extend their inquiries to the Islands of Jersey and Guernsey, and the Isle of Man; in virtue of which commissions, we transmitted to the several Archbishops and Bishops, Deans and Chapters, and other Ecclesiastical Corporations, aggregate and sole, and the several Incumbents of Benefices, and other Ecclesiastical preferments, certain inquiries concerning their respective revenues and other circumstances connected therewith; and, having obtained by means thereof the most satisfactory information that could within the time allotted to us be procured, made such a Report of the total income of the Church as our materials then enabled us to frame, in anticipation of a more complete and elaborate statement which we were then preparing to be founded upon a more detailed examination and inquiry.

And your Majesty having been pleased still further to extend the duration of the said Commission, for the purpose of enabling the said Commissioners to complete their inquiries;

We, your Majesty's Commissioners, whose hands and seals are hereunto set, humbly report to your Majesty, that having, in obedience to your Majesty's commands completed such inquiries, we have embodied the results thereof in several Tabular Statements, and other documents contained in the Appendix to this Report, which we now proceed to lay before your Majesty, premising that all the Returns of Income have been made upon an average of three years, ending the 31st of December, 1831, except where a departure from that rule has been rendered necessary by the particular circumstances of the case.

The Table, numbered I. relates wholly to the Archiepiscopal and Episcopal Sees, wherein are stated in successive columns, the sources and amounts of the gross and net Revenues of the same respectively, and of all preferments permanently or accustomably annexed to the See; the expectation of an increase or decrease of such income; the temporary charges affecting the same; and the several preferments enjoyed by the Archbishops and Bishops respectively.

The sum set down in the column for the payments, considered as deductions from the gross income of the Archbishops and Bishops, consists of the visitation expenses, salaries to bailiffs and other officers; agency in collecting rents, tithes, and other dues; rates and taxes on tithes; curates' salaries, and repairs of houses on annexed preferments; tenths, fee-farm rents, and other charges on the estates; expenses of holding courts, of surveys and valuations, and of management generally; and such miscellaneous and contingent expenses affecting the sources of income and lessening its clear amount as are reducible to an annual average, not including, among such outgoings, the repairs of the houses in which the several prelates reside.

Neither in this Table, nor in those which follow, relating to the Deans and Chapters, sole Corporations, Dignitaries, and the Clergy in general, has any deduction been made on account of incidental expenses, such as contributions and payments towards the support of schools and other local charities, and which fall heavier upon clerical incomes than upon those of any other class of proprietors possessing the same amount of revenue.

The Table, numbered II. exhibits the Incomes, Gross and Net, of all the Cathedral and Collegiate Churches, with the sources from which such incomes are derived, and the mode of their application and distribution. The same Table contains columns in which are stated the probable increase or decrease of the revenues, the temporary charges, the condition of the fabric, and the number of persons of which the chapter or corporation is composed, and whether they have any and what separate revenues; as also the number of spiritual persons belonging to each Cathedral and Collegiate Church, and the payments made to them out of the funds of the corporation. It contains also similar statements with respect to the minor Ecclesiastical corporations, existing in some Cathedral Churches under various denominations.

The Gross Revenue is the aggregate amount of the several sources of income set forth in the Table; and the Net is that sum reduced by the payments necessary or incidental to the maintenance of the Establishment; all payments and allowances to spiritual members being considered as included in, and making a part of, such net revenue.

Where no stipends or allowances are paid to such spiritual members, the whole net revenue is generally divided among the members of the Chapter; and where any such stipends or allowances are paid out of the net revenue to spiritual members, the surplus, after such payments, may be properly considered as the divisible amount; but it frequently happens that the persons among whom that amount is to be divided, voluntarily give up a certain portion of it for purposes of a charitable nature, or to meet extraordinary charges for the repairs or embellishments of the sacred edifice, which are not reckoned among the regular and constant outgoings, but which, when taken into account, will explain how it happens that the sum actually divided among the members of the Chapter, is often less than the net income reduced by the payments of stipends and allowances to spiritual members. It is in this way, for instance, that the Chapter of the Cathedral of Canterbury account for the reduced amount of the sum actually divided among the members of that body.

In a few cases the sum, stated to be divided among the members of the Chapter, exceeds the average

amount of the net revenue for the three years referred to in the Table; a difference which seems to arise from the particular mode in which the accounts of the Establishment are kept and settled; such accounts being sometimes carried over a longer period than that which is comprehended in the statement in the Table, and grounded on a more extended average; and sometimes reckoning as part of the divisible amount sums due, though not actually received till after the expiration of the three years in question.

The sum set down in the column for the Payments, considered as deductions from the gross income of the Cathedral and Collegiate Churches, consists of salaries and annuities to the officers and servants of the Establishments; tenths, rates, and taxes; ordinary repairs of the Cathedrals and Churches, and, in many cases, of the Houses of the Dignitaries; expenses of holding Courts, costs of surveys and valuations; and of management generally; charges and incumbrances upon the tithes and other revenues; and such miscellaneous and contingent expenses as are reducible to an average annual amount.

Some of the Cathedral and Collegiate Churches are of great antiquity: and besides a constant annual outlay for their support, require occasionally an extraordinary expenditure for their repair or restoration; the provisions for which are of various kinds. In some cases certain Estates or Funds are specially appropriated to this object; in others, the expenses of repairs are defrayed out of the general Revenues; and sometimes, as has been already intimated, the members of the Chapter assist the funds by a special contribution from their dividends, for the purpose of effecting some particular object of improvement. By the application of the supplies, drawn from these different sources, the Cathedral and Collegiate Churches are, for the most part well sustained and preserved throughout that part of Your Majesty's dominions to which our Commission extends.

We believe that we are justified in expressing an opinion, that since the year 1800 a larger sum has been expended in the restoration and repairs of Cathedral Churches, than had been laid out upon the same objects during the whole of the preceding century.

The expectation of future increase or decrease of Revenue is stated by the several Deans and Chapters, and other Corporations, with the reasons on which such expectation is grounded; and in the same column of the Table, where it has been thought that the average of Fines taken on the three years (to which, on account of the general difficulty of embracing a longer period, our Inquiries have been limited) would present an incorrect view of the Revenues of the Establishment, the probable future income has been computed upon a more extended average.

The Revenues of the Cathedral and Collegiate Churches appear, by the statements on the several Returns respecting their future prospects, to be generally tending towards decrease; and this tendency has been in many instances promoted by the augmentations of the poorer Livings in their patronage. It is obvious, also, that the incomes of these Corporations, being principally dependent on the Rents or Fines obtained for their estates in Land, or Impropriate Tithes, must have experienced a depression in common with all descriptions of agricultural property.

The Table, numbered III., contains a Statement of the Separate Incomes of the Spiritual Members of Cathedral and Collegiate Churches, enjoyed by them in right of their several dignities or preferments; with an account of the several sources from which such separate Revenues are derived; excluding all shares, stipends, and allowances to which they may be entitled as members of such Cathedral or Collegiate Churches out of the Corporate estates or funds of the same.

It is well known that Fines, for the renewals of Leases upon lives or years, constitute the principal, and, in most cases, the only substantial emolument arising out of the separate estates of such last-mentioned Dignitaries; and it is obvious that the period of three years does not afford a satisfactory average as to the produce of such Fines. An average taken upon a very long period was requisite to show the general amount, *communibus annis*, of the income of the particular Dignity or Preferment; and this it was found impossible to obtain from the several Incumbents, who have rarely been in possession for a sufficient length of time to afford the necessary data, and are generally ignorant of the number and amount of the Fines received by their predecessors. It has therefore been considered as most satisfactory to state the annual Income of each individual independently of his Fines; and, in a column immediately following that in which the Net Income is stated, to show what each has received for a Fine or Fines within the given period of three years, ending in 1831. The sum of all these Fines, divided by three, gives the average amount for each of the said three years, and the same has been added to the gross and net amounts of annual income made up from the other sources. Dividing these totals by the number of those persons who in right of their Prebends or Dignities have separate Revenues, we obtain the average annual sum which the aggregate amount would allow for each of such persons.

This Table includes only such Prebendaries, or Dignitaries, as have separate estates belonging to their

Prebends or Dignities, independently of any interest which they may have in any corporate estates or funds belonging to the Cathedral or Collegiate Churches of which they are members; and where any such spiritual person, besides his separate estate, has an interest in the revenues or funds of any Corporation aggregate, he is distinguished in this Table by the letters "C. A." added to his name.

As the answers to our inquiries, respecting the probable increase or decrease in the future amount of these separate Revenues, were too vague and uncertain to furnish grounds for a satisfactory or useful statement, no column has been assigned to that head in the Third Table.

The sums which are inserted in the column of this Table, as deductions from the gross Income of these Dignitaries of Cathedral and Collegiate Churches, consist of tenths, pensions, Cathedral dues, agency, and rates and assessments upon their Estates; and, with respect to the Archdeacons, of the necessary expenses incidental to their visitations, and the exercise of their respective jurisdictions.

The Benefices and Preferments in the patronage of the Archbishops and Bishops, of the Cathedral and Collegiate Churches, and of the several ecclesiastical members of such establishments having separate Revenues in right of their several Dignities, are contained in a distinct document, as the specification of them could not be comprehended within the limits of either of the three first Tables.

The Gross and Net Incomes, with other particulars, of the parochial and other Benefices, with and without cure of souls, in England and Wales, make the subject of a Fourth Tabular Statement, which includes all such Benefices as are held temporarily *in commendam*, but not such as are statutably or accustomably annexed to superior preferments; the Incomes of such Benefices being returned with the Incomes of those Preferments, and entered in the proper Tables.

Under each Diocese are included the Peculiars of the Bishop of that Diocese.

During the period which has elapsed since the first Returns were received, many changes of Incumbency have taken place by deaths, resignations, or cessions, which events, in a great number of cases, have of course not come within our knowledge; but, wherever such an event has been made known to us, the same has been noticed.

The difficulty of ascertaining to whom the Patronage belongs will account for the occasional omission of the name of the patron.

In many cases our inquiry respecting the Impropriator has not been answered, so as to enable us to insert the name in the column for that entry. The Incumbent, to whom that inquiry has been addressed, may be supposed to have been often unable to give the information required; or the title may have been in dispute. From such imperfect materials as were obtained, two Tables have been framed, showing in what numerical proportions the Patronage and Impropriations of the several Benefices are divided among the different denominations and classes of proprietors.

Where a Vicarage is partially endowed with the great tithes, it has been so expressed, by way of distinction or exception, in the Impropriation column. And in some cases, though of rare occurrence, the whole or part of the great tithes of a Rectory belong, not to the Incumbent Rector, but to a Lay Impropriator, who appears as such on the Table.

We have felt it expedient to inquire into the amount of the Population comprised within the limits of each Benefice, as the census of 1831 gives only the population of the Parish or Township. Although Rectories and Vicarages are generally co-extensive with the Parishes or Townships where they are situate, yet in many cases it is otherwise; so that, in order to ascertain the population of a particular Benefice, it has been frequently necessary to subtract the total population of the Chapelries, or Benefices, which are comprehended within it, from the total population of the principal place; for which purpose it has been necessary to ascertain the distinct population of each smaller place: and, as a Chapelry within a Parish sometimes includes a certain number of Townships, we have ascertained, by the census, the population of such Townships, and added them together, in order to arrive at that of the Benefice. In many cases, where there has been no Ecclesiastical District assigned to a Church or Chapel, the Incumbent has returned the surrounding inhabitancy, within a certain distance from the Chapel, (there being no other Church within a convenient distance,) as its appropriate population; and such amount of population has been adopted in the Table. Extraparochial places are frequently within the limits of the Benefice, but not included in the return which the census makes for the Parish; and sometimes cottages on commons are dubiously situated with respect to Parishes, but decidedly within the limits of a particular Benefice.

It may be further observed, independently of these grounds of discrepancy, there is frequently a considerable difference in the amounts returned to our inquiries by the Incumbents, and those given by the census, even where they relate to the same local limits. Where the Incumbent has stated the amount to be about, or nearly, or above, or below such a number, the census has always been resorted to, and the amount has been

given as there stated, where the returns have reference to the same extent of boundary; and so, also, where it appears that the Incumbent has stated the amount conjecturally, or in round numbers.

In answer to our inquiries respecting Church accommodation, the Incumbents have in many instances stated both the actual accommodation, and the number for which the Church might be made to afford room; in which cases the actual accommodation has been set down, except that, where the Church might be made to contain a greater number by filling up the vacant room with benches, or by some slight difference in the arrangement of the pews, it has been thought proper to state the capacity of the Church, rather than its existing means of accommodation.

Glebe Houses have been set down as fit for residence in all cases where they are actually occupied by the Incumbent, although they may have been returned as in bad repair; but where a Glebe House has appeared to be in a dilapidated condition, or insufficient for the accommodation of a Clergyman and his family, from the want of room and proper offices, it has been considered as unfit.

A Table has been added showing the number of cases in which the Glebe House is fit for residence, the number in which it is unfit, and the number in which there is no Glebe House.

Pew Rents, though a very variable and uncertain source of income, have nevertheless been treated as Ecclesiastical Revenue, wherever the amount has been ascertained; and it is to be observed that in those Benefices, which have of late years come into existence under the Church Building Acts, or by the operation of other causes, the pew-rents constitute the sole or principal support of the Minister.

We have not considered mere voluntary payments, collections, or contributions, which may be withdrawn at pleasure, as forming any part of the property of the Church; nor have we taken notice of unconsecrated Proprietary Chapels.

There are cases, in which the Parish Church is also the Chapel of some establishment not strictly ecclesiastical, and where the Minister derives nearly all his support from the income paid him in his capacity of Chaplain to such Establishment; in such cases we have only inserted in the Table such part of his income as accrues to him in his capacity of parochial Minister.

With respect to the incomes of Benefices derived from Land or Tithes, where allowances or abatements have been made to the tenants of the land, or to the tithe-payers, on the expressed ground that the rent or composition was too high, according to the value of agricultural produce, we have regarded the amount actually received as the proper income; but where a part has been returned, in consideration of an accidental failure of the crops, or where the rent or compositions have been received, and a part afterwards given back, from which it might be inferred that the Incumbent did not mean to lower his income permanently; or where the Incumbent has treated the deficiences as arrears, the amount demandable according to the previous settlement, or agreement between the parties, has been considered as the real income.

Where a certain deficiency has been constantly recurring, and the Incumbent himself has not contemplated the recovery of his dues as possible, but rather expects a further depression, such deficiency has been considered as so far reducing the actual income of the Living.

If the income has been reduced since the year 1831 by the failure or defalcation of some of its sources, or by the reduction of rent, or by fresh agreements for the composition of tithes, such reductions have been considered as having a permanent character; and the amount of income has been stated with reference to such subsequent reduction, the three years' average to 1831 being considered as applicable to a continuing, though variable income.

In setting down the sums in the Tables, it has been thought inexpedient to notice fractional amounts, except in the case of mortgages and other charges upon the Benefices.

Where the Glebe House and premises, whether fit or unfit, are let by the Incumbent, the rent has not been considered as part of the gross Income; since, if it were so considered, it would appear upon the Table that the Incumbent had the Glebe House, and also the annual sum received as rent for it; besides which, it has appeared to us that the Glebe House and Premises could not properly be considered as a legitimate source of income.

With respect to the deductions to be made from the gross income, the following course has been taken:—Poor-rates upon the land, and upon tithes, and repairs done upon the farms and lands, as affecting the sources of income, and not connected with its enjoyment and expenditure, and also the repairs of Chancels, have been considered as proper to be deducted from the gross, in ascertaining the net income; but no deduction has been made in respect of rates paid upon Glebe Houses or offices, or any repairs of the same. The other deductions have been the tax upon the land, the expense of collecting rents or compositions, payments for labour where Tithes are taken in kind, tenths, synodals, procurations, and visitation Fees. There are a great many outgoings which it has been impossible to take account of in the Table, being only occasional, and

therefore not admitting of an average, such as calls for subscriptions towards draining and embanking. Where, however, the lands appear to be so circumstanced as to call for a regular annual outlay for the support of banks or drains, such payments have been considered as proper deductions.

In the column for the Curates' Stipends, money payments only could be put down, which include the fees where the amount is stated, and where they make a part of the remuneration; but it is to be observed, that in a great number of cases the remuneration consists partly of money, and partly of certain allowances and advantages, as the occupation of land, or the use of a house or furniture, without paying rent for the same.

Where the Curate was stated to us to be wholly, or in part, paid by the Bishop, or by any municipal body, or by parochial or voluntary contributions, and such payments are made immediately to him, and not in the first place to the Incumbent, so as nominally to form part of the income of such incumbent, such circumstance is noticed in the proper column.

The letter "A" is added to denote an assistant Curate, where the Incumbent is resident, in which case the stipend is not fixed by Act of Parliament; and it may be observed, that in many cases where the stipend assigned appears to be small, the Curate is either the Incumbent, or serves the Cure, of a neighbouring Benefice. A Clergyman employed by the Incumbent temporarily, or occasionally, or by the week, has not been considered as a Curate.

Where a Curate receives a stipend for officiating at more than one Benefice held by the same Incumbent, notice is taken of it where his stipend is first mentioned.

The Curate sometimes appears to have received no salary, but some allowances or advantages in lieu of salary. In such a case, if he has been licensed at a certain stipend, such stipend has been considered as his proper remuneration, and the same has accordingly been inserted in the Table.

Under the column for Mortgages and Temporary Charges, all sums borrowed from Queen Ann's Bounty fund, under the Act commonly called "Gilbert's Act," have been set down according to the entries respecting them at the Bounty Office. Where they have not been borrowed from the Governors of Queen Ann's Bounty, they have been stated according to the information given by the parties.

Where the Mortgage has not been made under Gilbert's Act, but under some enclosure or other local Act, the sum borrowed occurs in its proper column, and the termination of the charge is stated to be uncertain. If the borrowing has not been under any Act of Parliament, so as to charge the Living generally, it has not been noticed.

In Jersey and Guernsey the Benefices are merely nominal Rectories, the Incumbent not being entitled in any case to more than a portion, generally one-third, of the great tithes, the Crown or Governor taking the residue; and in some cases the whole goes to the Crown or Governor.

Prior to the Reformation, the Norman Abbots were the Patrons of the Livings in Jersey, and the whole of the Tithes of the Parishes of St. Peter, Trinity, St. John's, St. Owen, St. Lawrence and St. Saviour's, five-sixths of St. Brelade's, two-thirds of St. Mary's, three-fifths of St. Clement's, two-fifths of St. Martin's, eleven-twelfths of Grouville, and nine-tenths of St. Helier's, were divided among certain Abbots and Bishops of Normandy, and the remaining fractions were apportioned among the Rectors of the several Parishes. Since the Reformation, the great tithes and the rents of Church Lands, which used to be transmitted to Normandy, have become Droits of the Crown.

The Governor of Jersey is the patron of the Churches as the Grantee of your Majesty's Patrimonial Revenues in that Island, and presents to the vacant Livings; but, by the Ecclesiastical Canons of the Island of Jersey, established by King James the First in 1621, pluralities in the Island were disallowed.

Among so many thousand Returns, it was to be expected that a large number would be defective in some material points; and much interruption has been occasioned to the course of our inquiry by the frequent necessity that has arisen therefrom for correspondence with the parties.

We have also prepared a Tabular Summary of the number of Benefices in each Diocese returned to us; the total amount of Incomes, gross and net, of the Incumbents in each Diocese; also, the averages of each respectively; the number of Curates in each Diocese; the total amount of their stipends, and the average thereof. And we have also added four Scales of the Incomes of the Beneficed Clergy; the first advancing by £10 at each step of the scale to £200, the second by £20 to £500, the third by £50 to £1,000, the fourth by £100 to £2,000, and from thence by £500 to £4,000 and upwards, there being only two above the last-mentioned amount.

We have further added a Tabular Statement of the Sinecure Rectories returned to us, (Sixty-two in number,) by which it appears that the gross annual revenues thereof amount to £18,622, affording an average of £300; and that the net annual revenues thereof amount to £17,095, affording an average of £275. The Sinecure Rectories not returned are four in number.

From the returns to our inquiries, arranged and digested in the Tabular Statements before mentioned, it appears that the total amount of the gross annual Revenues of the several Archiepiscopal and Episcopal Sees in England and Wales is £181,631, affording an average of £6,727; and the total amount of the net annual Revenues of the same is £160,292, affording an average of £5,936.

The total amount of the gross annual Revenues of the several Cathedral and Collegiate Churches in England and Wales is £284,241, and the total amount of the net annual Revenues of the same is £208,289.

The total amount of the gross annual separate Revenues of the several Dignitaries and other spiritual persons, members of the Cathedral and Collegiate Churches in England and Wales is £75,854: and the total amount of the net annual separate Revenues of the same is £66,465.

The total number of Benefices, with and without cure of souls, the Incumbents whereof have made Returns to our inquiries, omitting those which are permanently or accustomably annexed to superior preferments, and which are included in the statements respecting those preferments, is 10,540. The total amount of the gross annual Revenues of these Benefices is £3,197,225, giving an average Income of £303; and the total amount of the net annual Revenues of the same is £3,004,721, giving an average income of £285.

The total number of Benefices, with and without cure of souls, in England and Wales, including those not returned to us, but exclusive of those annexed to other preferments, (about twenty-four in number,) is 10,718, the total gross Income of which, calculated upon the average of those returned, will be £3,251,159, and the total net Income thereof will be £3,055,451.

The total number of Curates returned to us as employed by resident Incumbents is 1,006, whose annual stipends or payments in money amount to £87,075, affording an average of £86. Those employed by non-resident Incumbents are 4,224; the amount of their stipends £337,620; and the average £79. And the average of the whole of the Curates' Stipends is £81.

Before we conclude our Report, we deem it incumbent upon us to observe, that the expenses bearing upon the incomes of the Clergy, of every class, are by no means confined to those already enumerated. The Archbishops and Bishops, in addition to the payment of fees, first fruits, and other charges incident to the taking possession of their preferments, are subject to heavy expenses for the support and reparation of their houses of residence. All the Beneficed Clergy are liable, in a greater or less degree, to similar charges. On the Archdeacons, who are among the most useful and efficient officers of the Church, the supervision of their Archdeaconries, sometimes extending over a very large territory, entails in many cases, an expenditure exceeding the whole emoluments of their office; and their costs and charges for first fruits and fees of admission generally exceed the amount of their receipts for the first two or three years after their entering into office. This last observation applies to many Prebendaries and other Dignitaries of Cathedral and Collegiate Churches.

The arrears due to the Beneficed Clergy are in many instances very considerable. These, however, are not deducted in the statement of their incomes upon the Table.

All which we humbly submit to Your Majesty's consideration.

Last yearly payment in respect of £25,000 will be in 1871 Ditto ditto 25,000 ——— 1872 Ditto ditto 10,000 ——— 1873	A mortgage of 60,000*l.*, made by virtue of an Act of Parliament for rebuilding Lambeth Palace, and making additions to the mansion at Addington, 1-40th part of the principal to be repaid every year, with interest at 4*l.* per cent. on the principal sum remaining unpaid. The fixed yearly instalment of principal is
YORK. Right Hon. & Most Rev. EDWARD HARCOURT, D.C.L., 1808. Primate of England, and Lord High Almoner to the King [Consecrated Bishop of Carlisle, 1791.]	13,798	1169	12,629	The average amount of fines on renewals for the three years ending the 31st Dec., 1831, exceeded, from particular circumstances, the usual average by at least 2000*l.*; and there will be a further reduction of the future amount of the proceeds of the estates generally, to the extent of about 20 per cent., from the diminution of the value of agricultural produce. There will be a further decrease from intended augmentations of the livings in the patronage of the See, in addition to those already made.	
ST. ASAPH Right Reverend WILLIAM CAREY, D.D. 1830. [Consecrated Bishop of Exeter, 1820.]	7408	1107	6301	The far greater part of the income of the See arises from tithes; which have been gradually declining since the year 1827, when they amounted to [illegible]. By a supplemental statement it appears, that the produce of the tithes was, in 1834, 3214*l.*, which is below the average of the tithes, for the three years ending in 1831, by the sum of [illegible]; and that the produce of the rures was, in the same year, 2[illegible]*l.*; which is less than the same average by the sum of 41[illegible]*l.*, shewing the income for the year 1834 to be below the average income stated, by the sum of 1[illegible]*l.*: and there seems to be no prospect of improvement.	
BANGOR Right Reverend CHRISTOPHER BETHEL, D.D. 1830. [Consecrated Bishop of Bangor, 1826.]	[illegible]	[illegible]	[illegible]	By a supplemental statement it appears, that the [illegible] years 1833 and 1834 have fallen below the average of the three years ending 1831, by [illegible] or about that sum; and there is no prospect of increase. The average of fines is expected to be less by [illegible] in many years to come.	
BATH and WELLS. Right Rev. CHRISTOPHER BANKES, D.D. [illegible] [Consecrated Bishop of Bangor, 1827.]	[illegible]	[illegible]	[illegible]	The net income is expected to be reduced to about [illegible], in the probable diminution of fines upon renewals.	
BOSTON. Right Reverend [illegible] [Consecrated Bishop of Bangor, 1827.]	[illegible]	[illegible]	[illegible]	The average [illegible] the three years ending [illegible] exceeds the estimated [illegible]. The living of Chinnisbury is not expected to [illegible] in amount.

TABLE I.—REVENUES OF THE ARCHIEPISCOPAL AND EPISCOPAL SEES.

SEES.	Gross Yearly Income, including Preferments.	Permanent Yearly Payments out of the Revenues.	Net Yearly Income, subject to temporary Charges.	Expected Increase or Decrease (if any) of Income.	Temporary Charges upon the Revenues.
CHESTER. Right Reverend JOHN-BIRD SUMNER, *D.D.* Rectory of Waverton, permanently annexed. Prebend in Durham cathedral, in commendam.	3935	690	3261	Decrease expected, as the property of the See chiefly consists of tithes, which are falling in value.	
CHICHESTER. Right Reverend EDWARD MALTBY, *D.D.*, 1831.	4375	146	4229	The average amount of fines on renewals, for the three years ending 31st Dec., 1831, was greater than the general average receipts under that head. It is considered, that the average on which the whole income has been computed should be reduced by 400*l.* or 500*l.* per annum.	
ST. DAVID'S. Right Reverend JOHN-BANKS JENKINSON, *D.D.*, 1825. Deanery and treasurership of the collegiate church of Brecon, permanently annexed. Deanery of Durham in comm.	2490	593	1897	The average yearly receipts from fines on renewals of leases, for the three years ending 31st Dec., 1831, was 214*l.*; whereas the average of the last ten years is 1150*l.* per ann.; but this last-mentioned average cannot be depended upon in future.	
DURHAM. Right Rev. WILLIAM VAN MILDERT, *D.D.*, 1826. [Consecrated Bishop of Llandaff, 1819.]	21,991	2925	19,066	No accurate judgment can be formed as to the future average amount of fines on the renewals of leases of mines and quarries; as the profits attending them must depend principally upon the several districts in which the collieries will be worked. Since making this return, the Bishop has granted permanent augmentations to small livings in his patronage, to the amount of 1170*l.* per annum, out of the revenues of the See. No other ground for expecting increase or decrease.	
ELY. Right Reverend BOWYER-EDWARD SPARKE, *D.D.*, 1812. [Consecrated Bishop of Chester, 1809.]	12,627	1522	11,105	The estimate of the last three years is considerably more than the average amount: it is considered that the average income, if calculated upon a period of sufficient extent, would not exceed 8000*l* a year.	
EXETER. Right Reverend HENRY PHILLPOTTS, *D.D.*, 1831. Rectory of Shobrook, in the county of Devon, and diocese of Exeter, permanently annexed to the bishoprick. Treasurership of, and prebend in, Exeter cathedral, accustomably held in comm. Prebend in Durham cathedral, in commendam.	3147	434	2713	There will be in future 21*l.* per annum from the dividends on stock produced by the sale of houses under a local Act. In other respects there is no reason to anticipate any considerable increase or decrease.	
GLOUCESTER. Right Rev. JAMES-HENRY MONK, *D.D.*, 1830. Prebend in the collegiate church of St. Peter's, Westminster; and rectory of Peakirk, county of Northampton, diocese of Peterborough, in commendam.	2406	124	2282	No expected increase or decrease, except in respect of augmentations of small livings in the patronage of the See, intended to be granted.	
HEREFORD. Hon. and Right Rev. EDWARD GREY, *D.D.*, 1832. Prebend at Westminster, in commendam.	3090	574	2516	No expected increase or decrease.	
LICHFIELD AND COVENTRY. Hon. and Right Rev. HENRY RYDER, *D.D.*, 1824. [Consecrated Bishop of Gloucester, 1815.] Prebend of Eccleshall permanently annexed to bishoprick. Prebend in the collegiate church of St. Peter's, Westminster, in commendam.	4375	452	3923	If the average of fines, as far as it can be ascertained from accessible documents, were to be taken upon a period of twenty-one years, it would considerably increase the net income; but a material reduction of the future amount of fines is to be expected, from the progressive diminution of the value of the lands. A decrease of the profits from woods is also expected. Upon the whole, it is considered that, at a distant period, the increased net income may average 4350*l.* per annum. The income will also be decreased by the augmentation of poor livings in the gift of the See, intended to be made.	

TABLE I.—REVENUES OF THE ARCHIEPISCOPAL AND EPISCOPAL SEES.

SEES.	Gross Yearly Income, including Preferments.	Permanent Yearly Payments out of the Revenues.	Net Yearly Income, Subject to temporary Charges.	Expected Increase or Decrease (if any) of Income.	Temporary Charges upon the Revenues.
LINCOLN. Rt. Rev. JOHN KAYE, *D.D.*, 1827. [Consecrated Bishop of Bristol, 1820.] Prebend of Buckden, in Lincoln cathedral, permanently annexed to the bishoprick.	4913	371	4542	The estimate taken upon the three years ending 31st Dec. 1831, exceeds the general average by the sum of 680*l.*; viz. in respect of fines, by 623*l.*, and in respect of lands, &c. at rack rents by 57*l.* The property consists almost entirely of impropriate rectories with dependent vicarages; the intended augmentations of which, in virtue of the late Act, will cause a further considerable diminution of the net annual proceeds.	
LLANDAFF. Right Reverend EDWARD COPLESTON, *D.D.*, 1828 Treasurership of Llandaff annexed to the Bishoprick. Rectory of Bedwas, county of Monmouth, diocese of Llandaff, accustomably held in commendam. Deanery of St. Paul's, in commendam.	1008	84	924	It is considered that, upon a sufficiently extended average, the income from fines might be taken at 400*l.* per annum: a corresponding increase of income is therefore expected.	
LONDON. Rt. Hon. & Rt. Rev. CHARLES-JAMES BLOMFIELD, *D.D.*, 1828. [Consecrated Bishop of Chester, 1824.]	15,133	1204	13,929	It is expected that there will be a decrease in the future average income arising from fines upon renewals of leases for lives, and from woods and manorial profits, to the amount together of 1725*l.*; and a further decrease from intended augmentations of the livings in the patronage of the See, in addition to those already made.	A mortgage for 10,000*l.*, made by virtue of an Act of Parliament for re-building London House; by virtue whereof 1-20th part (500*l.*) is payable every year, with interest on the principal from time to time remaining unpaid. The last yearly payment will be in 1839.
NORWICH. Right Reverend HENRY BATHURST, *D.C.L.* 1805.	5696	301	5395	The average amount of income, taken upon the three years ending 31st Dec. 1831, exceeds the average annual value of the revenues of the See, if computed upon the receipts for the last seven years, by the sum of 700*l.* per annum; and there will be a reduction of income by the augmentation of small livings in the gift of the See.	
OXFORD. Hon. and Rt. Rev. RICHARD BAGOT, *D.D.*, 1829. Vicarage of Cuddesden, county and diocese of Oxford permanently annexed to the bishoprick. Deanery of Canterbury; rectory of Blithfield, and rectory of Leigh, county of Stafford, diocese of Lichfield and Coventry, in commendam.	3106	458	2648	A decrease in the revenues of the See must be expected. The average of fines on renewals of leases, for the three years ending 31st Dec. 1831, is found, on calculation, to exceed the average receipts from the same source which may reasonably be expected for the future, by about the sum of 1060*l.*; and a deduction of 90*l.* must be allowed for the depreciated value of land and tithes in hand. If the Crown shall be pleased to renew a lease, granted on account of the small revenues of the See, and which will expire in the year 1837, it is expected that, communibus annis, the net yearly value of the See will amount to 1658*l.*, or about that sum.	
PETERBOROUGH. Right Reverend HERBERT MARSH, *D.D.*, 1819. [Consecrated Bishop of Llandaff, 1816.] Rectory of Castor, county of Northampton, diocese of Peterborough, permanently annexed to the bishoprick.	3518	415	3103	The total receipts of the bishoprick may be expected to be less in future than the average of the three years ending in 1831; as the fines upon renewals of leases, as well as the tithes of Castor, are continually decreasing in amount.	
ROCHESTER. Right Reverend GEORGE MURRAY, *D D.*, 1827. [Consecrated Bp. of Sodor and Man, 1813.] Deanery of Worcester Cathedral; and rectory of Bishopsbourne, county of Kent, diocese of Canterbury, in commendam.	1523	64	1459	No expected increase or decrease.	

TABLE I.—REVENUES OF THE ARCHIEPISCOPAL AND EPISCOPAL SEES.

SEES.	Gross Yearly Income, including Preferments.	Permanent Yearly Payments out of the Revenues.	Net Yearly Income, subject to temporary Charges.	Expected Increase or Decrease (if any) of Income.	Temporary Charges upon the Revenues.
SALISBURY. Right Reverend THOMAS BURGESS, *D.D.*, 1825. [Consecrated Bishop of St. David's, 1803.] Prebend in Salisbury cathedral, permanently annexed to the bishoprick.	4145	206	3939	If the calculation were taken upon an average embracing a period of years in which it is probable that most of the leases for lives as well as for years would be renewed, the result would produce a net income, communibus annis, of not less than 5000*l.*, or between that sum and 6000*l.* per annum.	
SODOR AND MAN. Right Reverend WILLIAM WARD, *D.D.*, 1827. Prebend in Salisbury cathedral; and rectories of Great Horkesley and Alphamston, county of Essex, diocese of London, in commendam.	2725	170	2555	No expected increase or decrease.	
WINCHESTER. Rt. Rev. CHARLES-RICHARD SUMNER, *D.D.*, 1827. [Consecrated Bishop of Llandaff, 1826.]	12,107	956	11,151	The augmentations already made of small livings in the patronage of the See will reduce the annual income by the amount of about 400*l.* It is intended further to augment all the small livings in the gift of the See to 200*l.* per annum. Except in respect of these augmentations, there are no grounds for expecting that the future income will vary materially from the sum stated in this report.	
WORCESTER. Right Rev. ROBERT-JAMES CARR, *D.D.*, 1331. [Consecrated Bishop of Chichester, 1824.]	6916	347	6569	There is reason to expect a decrease of income from a diminution of the amount of fines upon renewals of leases.

Houses are assigned for the residence of the dean and the prebendaries, who are bound to keep them in repair. The dean occupies his decanal house; of the prebendaries, some reside, and some let their houses at rack rent.	None.
CANTERBURY. The corporation consists of the dean and twelve prebendaries. The dean has assigned to him, by statute, a yearly stipend of 56*l.* 13*s.* 4*d.* The twelve prebendaries have each a yearly stipend of 17*l.* 6*s.* 8*d.* There are six preachers with a stipend of 25*l.* each, and an allowance for residence. The lecturer of the cathedral, who is also lecturer of St. Cuthbert's, is paid for the two offices 100*l.* per annum. Five minor canons, 8*l.* each; the curate of St. Cuthbert's, 5*l.* 6*s.* 8*d.*; the sacrist, 1*l.*; all the minor canons, except the lecturer, have 20*l.* each from tithes; in addition to which, the minor canons hold the tithes of St. Cuthbert's, now under litigation. No houses assigned for residence. CHESTER. The corporation consists of the dean and six prebendaries. The salary of the dean is 120*l.*; that of the prebendaries, 26*l.* 13*s.* 4*d.* each. The fine-money is first divided into eight parts: one-eighth is carried to the church account; the remainder is again divided into eight parts, of which two go to the dean, and the other six to the prebendaries. After which payment of salaries and apportionment of fine-money, the remainder of the net revenues is always applied in liquidation of the church account. There are also six minor canons, with salaries of 15*l.* each; and 48*l.* each, arising from lands left to them by Mrs. Barbara Dod, in 1703. Two of the minor canons have houses assigned to them, in which they reside; the same being repaired out of the church fund. *Dean.* Very Reverend George Davys, *D.D.*, 1831. *Prebendaries.* Archd. None.
CHICHESTER. The persons composing the corporation are the dean and four canons residentiary, who divide the net income equally. There are also four minor canons, who receive from the funds of the dean and chapter, on an average of the three years above-mentioned, 117*l.* 8*s.* 1*d.*, which is divided equally among them. [*For Names of the Chapter, see Table III.*]	5361	1416	3721	As the stated average amount of fines exceeds the general average, it is considered that the net yearly income is estimated at a higher amount than can be fairly reckoned upon for the future. It is expected to be, communibus annis, about 2500*l.* per annum.	There are houses assigned for the residence of the dean and two of the canons residentiary, who reside in them, and are bound to keep them in repair.	They all have.

ST. DAVID'S. The corporation consists of six canons, who take equal shares of the net revenue (except the adoptions, which are paid in the following proportions, according to seniority—namely, 32*l.*, 15*l.*, 11*l.*, 10*l.*, 8*l.*, and 5*l.* 13*s.* 4*d.*; in all, 82*l.* 6*s.* 8*d.*): the average sum so divided, after payment of the adoptions, being 1176*l.* There are eight vicars choral; of whom sometimes four, and sometimes five, are priests, and one of the lay vicars is always organist. The vicars choral are a corporate body. [*For Names of the Chapter, see Table III.*]	1855	504	1351	The average sum in respect of fines on renewal of leases, rather exceeds that expected for the future.	The precentor, chancellor, & treasurer, have houses, which they keep in repair. The precentor is generally resident. The two other houses are small, and inhabited by vicars choral as tenants.	The precentor, chancellor, and treasurer, have separate revenues.
ST. DAVID'S (Subchanter & Vicars Choral.) The corporate body consists of eight persons: each receives 36*l.* from what is called the common fund; each also receives, yearly, from certain small tithes, as follows—namely, the subchanter 38*l.*, senior vicar choral 80*l.*, bishop's vicar 39*l.* The other five as follows: 32*l.*, 44*l.*, 37*l.*, 18*l.*, and 15*l.*: all which sums amount together to 591*l.* The subchanter, the bishop's vicar, and the organist, also receive from the dean and chapter, in respect of their several offices in the cathedral, 6*l.*, 2*l.* 14*s.* 9*d.*, and 31*l.* *Priest Vicars.* John Williams. John Roberts. W. Richardson.	591	...	591	No expected increase or decrease.	No member of the body has any house of residence attached to his office.	None.
DURHAM. The corporation consists of the dean and twelve prebendaries. There are also eight minor canons; of whom the precentor and sacrist have each 168*l.* 6*s.* 9*d.*; the reader of prayers in the Galilee chapel, 174*l.* 11*s.* 9*d.*; the gospeller, 158*l.* 6*s.* 9*d.*; one reader of early prayers, 155*l.* 18*s.* 9*d.*; another reader of early prayers, who is also epistoler, 165*l.* 18*s.* 9*d.*; and the two other minor canons, 148*l.* 6*s.* 9*d.* each; which revenues are paid by the dean and chapter. No houses are assigned to them for residence. After payment of such stipends and allowances—and also of the stipends and allowances, amounting to 5672*l.* 13*s.* 4*d.*, to the dean and prebendaries who have kept their residence—the surplus is divided into fourteen parts, of which the dean receives two-fourteenths, and the prebendaries one each: the sum so divided, according to the said average, being 20,877*l.* [*For Names of the Chapter, see Table III.*]	35,071	7138	27,933	The augmentations of the poor livings in the patronage of the dean and chapter, when completed as intended—exclusive of those which were granted previously to 1831, amounting to 1734*l.* 2*s.* 9*d.* are estimated at 3000*l.* per annum. They have expended, and are expending, large sums in building churches and chapels; and property which produced upon an average 2986*l.* 18*s.* per annum, has been appropriated to the Durham university. By a supplementary statement it appears that, in July, 1832, a fine of 44,266*l.* 12*s.* 10*d.* was paid by the Marquis of Londonderry for the renewal of a colliery lease, of which about twelve years had expired; and that it is improbable that so large a fine should be received again. It is further stated, that the average of the three years upon which the return was made was higher than the average of any former three years; and that, independently of the appropriation to the Durham university, and of the augmentations of poor livings, as above mentioned, the revenues are expected in future to produce a much lower average than that which has been stated.	There are houses assigned to the dean and the other members of the chapter, which they reside in and keep in repair, the wood being allowed them for that purpose.	They all have.
ELY. The corporation consists of the dean and eight prebendaries, among whom is divided the fund called the onus dividend, which consists of fines on the renewals of leases, a certain portion of reserved rents, the rents of property in hand, and the dividend monies for parts of estates taken by commissioners under Acts of Parliament. The dean and prebendaries have stipends, amounting together to 300*l.* 7*s.* 6*d.* The sums paid to the other ecclesiastical members of the cathedral amount together to the sum of 267*l.* The sum divided among the dean and prebendaries was, according to the said average, 6,069*l.* There are four minor canons, each of whom, in addition to his minor canonry, holds some office in the cathedral. The sums specified in this column appear to exceed the net income, so as to leave a deficiency; but it is stated, that if the income were to be taken on a more extended average, there would have been a different result. The minor canons have no houses as minor canons; but as registrar and upper grammar-schoolmaster, two of them have houses assigned to them for residence. [*For names of the Chapter, see Table III.*]	8651	2246	6405	Decrease expected in respect of fines on renewals of leases; the stated average thereof exceeding, by 2144*l.*, the general average. Most of the leases are of rectorial tithes; and the lessees appear unwilling to renew upon terms equal to those hitherto accepted.	There are houses assigned for the residence of the dean and prebendaries, and occupied by them respectively. They are repaired partly out of the domus fund, and partly by the respective prebendaries who occupy them. The dean and chapter find all materials; the occupiers all the labour.	The dean and each of the prebendaries have, with their residences, a small portion of land, which they let.

EXETER. There are twenty-four canons or prebendaries; of whom nine are canons residentiary, the dean being one. The prebendaries, not being canons residentiary, receive fixed payments of 20*l.* per annum each. The nine canons residentiary receive each a fixed payment of 69*l.* 5*s.*, and divide among them the surplus net revenue, after payment of all stipends and allowances. The three archdeacons are paid the annual sum of 135*l.* among them. The lecturer is paid a fixed stipend of 30*l.* out of the revenues. The sum divided among the canons residentiary was, according to the said average, 5983*l.* [*For Names of the Chapter, see Table III.*]	10,438	2782	7052	No expected increase or decrease, except in trifling particulars. The corporation have availed themselves of the late Act, by augmenting two poor livings in their patronage. For the liquidation of a debt, incurred in building a house for residence, there has been reserved an annual sinking fund of 229*l.* which will cease in about twenty or thirty years.	There are houses assigned for the residence of the dean, the precentor, the chancellor, & three others for residentiaries; all of whom are bound respectively to keep their houses in repair.	The dean, the precentor, the chancellor, the treasurer, and the sub-dean, have each separate revenues.
EXETER (Custos and College of Vicars Choral.) The corporation consists of four priest-vicars, of whom one is the dean's vicar and subtreasurer, and another the custos of the college. They divide the net revenues equally among them. The dean's vicar has 14*l.* per annum for surplice fees. The custos of the college has no additional stipend for that office. *Priest-Vicars.* Edward Chave, *M.A.* 1799 | A.T.R. Vicary, *B.A.* 1828 G. M. Several renewals took place about two years ago, making the amount of fines exceed the general average; and upon the whole, a less yearly sum, by about 90*l.*, may be expected for the future.	The custos and college have houses belonging to the corporation, but they do not reside in them, being unfit for the residence of clergymen. The priest-vicars are bound respectively to keep them in repair.	None.
GLOUCESTER. The corporation consists of the dean and six prebendaries. The dean receives 100*l.* as an annual stipend; the prebendaries 20*l.* each; the sub-dean 10*l.*; and the treasurer, who is always one of the prebendaries, 15*l.* 17*s.* 2*d.* There are four minor canons; three of whom have each 50*l.* per annum salary, and the fourth 90*l.* One of the minor canons is under-schoolmaster, for which office he receives 10*l.* per annum; and another, as librarian, receives 4*l.* per annum: which stipends are paid out of the revenues of the dean and chapter. The minor canons have no houses assigned to them. The dean receives two-eighths, and the prebendaries each one-eighth, of the surplus net revenue; the sum so divided, according to the said average, was 3440*l.* *Dean.* Hon. & Very Reverend Edward Rice, *D.D.*, 1825. *Prebendaries.* Hon D. Houses are assigned for the residence of the dean and each of the prebendaries, who are respectively bound to keep them in repair. They all reside except two; one of whom has his Majesty's dispensation for non-residence, and the other is prevented from residing by ill health.	None.
HEREFORD. The corporation is composed of the dean and five residentiary prebendaries; who, after payment of all stipends and allowances, divide between them the surplus net revenues, excepting what are called options, and which are chosen according to the seniority of standing in the chapter, save that the dean, on the first year after his appointment, and on every subsequent seven years, has the first choice: the sum so divided, according to the said average, was 3247*l.* Besides the residentiary prebendaries above-mentioned, there is a precentor, and also twenty-two prebendaries. There is also a college of vicars, which is a corporate body. [*For Names of the Chapter, see Table III.*]	4426	822	3544	No expected increase or decrease. Five per cent. is charged upon all leasehold and copyhold fines, which is made a sinking fund for gradually extinguishing a debt incurred for the repairs of the fabric, amounting to 9371*l.* 17*s.* 5½*d.* There is an estate appropriated to the repairs of the building, which, with some other small resources, have produced, upon an average of three years, 645*l.* 3*s.*; but the expenditure has been 791*l.* 4*s.* 10*d.*, and the difference has been made good by the dean and chapter, out of their own funds.	The dean and the bishop's prebendary are the only two members of the chapter who are in possession of houses belonging to their dignities: they reside in them, and are bound to keep them in repair.	They all have.

LICHFIELD. The corporation consists of the dean and six canons residentiary. The dean receives for his commons 42*l.* 10*s.*, and each of the canons 14*l.* 6*s.*: and they divide the surplus in the following proportions:—the dean receives one-fifth, and the remaining four-fifths are equally shared among the six canons residentiary; the average sum so divided being 1183*l.* [*For Names of the Chapter, see Table III.*]	1638	327	1311	If the fines on renewals of leases were taken on an average of seven instead of three years, it would exceed the average stated by about 150*l.* per annum.	Houses are assigned for their residence, and they are bound to keep them in repair.	They all have.
LICHFIELD (Subchanter and Vicars Choral.) The corporation consists of twelve persons—viz. five priest-vicars (including the subchanter), an organist, and six vicars choral. LINCOLN. The corporation consists of the dean, the precentor, the chancellor, and the sub-dean. Houses are assigned for the residence of the dean and the three other members of the chapter, in which they reside, and which they are bound to keep in repair.	They all have.

NORWICH. The corporation consists of a dean and six prebendaries. The corps money, &c. of the dean is 102*l.* 5*s.*, and of each prebendary only 20*l.* There are six minor canons, three of whom have 20*l.* per annum; one of them, the precentor, 40*l.*; another of them, the sacrist, 29*l.*; and another, the librarian, 31*l.* There are also a gospeller and epistoller: to the gospeller is paid 19*l.* per annum, and to the epistoller 26*l.* 10*s.*; all which payments are made out of the funds of the dean and chapter. Three of the minor canons have houses assigned to them. The three other minor canons have small sums per annum in lieu of houses—viz. one 25*l.* per annum, the other two 10*l.* each. For the epistoller a new house has been built; the gospeller has 15*l.* per annum in lieu of one. The dean and prebendaries divide the surplus net revenue, after payment of all stipends and allowances, in the following proportions: the dean has two-eighths, and the prebendaries one-eighth each. OXFORD—(CHRIST CHURCH.) [*Christ Church alone, of all the cathedrals in the kingdom, embraces in its foundation a chapter and also a college, on the largest scale. The revenues and outgoings of the cathedral church, and also of the college, cannot be stated separately: the total, therefore, in respect of both establishments, is necessarily included in this return, although the revenues of the latter are not ecclesiastical, and therefore not properly returnable under the present commission.*] The chapter consists of a dean and eight canons. The dean receives for wages 133*l.* 6*s.* 8*d.*, and for focalia 10*l.*; and each canon receives for wages 20*l.*, and for focalia 5*l.* Of the rent of the college meadow (let for 250*l.*) the dean receives one-half, and each canon one-sixteenth. The average sum divided between the dean and canons, but subject to taxes, contributions to small livings, &c. was 12,547*l.*; and in respect of college offices, but subject to college and university dues, was 2153*l.*; the dean receiving one fifth, and each canon one tenth. The difference between the net yearly income, taken upon the average of the three years ending in 1831 (stated in the column under that head), and the amount of the two last-mentioned sums, is accounted for by the peculiar character of the dean and chapter with relation to the college, and their complicated and multifarious accounts; the explanation of which does not appear to be necessary, and could not be reduced within the compass of a tabular statement. *Dean.* Very Rev. The fabric of the cathedral is in a sound state. The college buildings have required, and will continue to require, great reparations; and the ordinary resources of the college being inadequate to the purpose, the dean and chapter established a fund, some years ago, for extraordinary repairs (which was nearly exhausted by the fire in 1809): they transferred the timber money and the surplus of the land-tax, as well as certain profits of the deanery and canonries when vacant, to that fund; besides which, they have taxed themselves with a payment on admission (the dean of 200*l.*, each canon of 100*l.*), and take an entrance fee for the same purpose from each member of the college, and a small quarterly decrement; and they have lately relinquished to this fund chamber-rents, which were formerly divided (amounting to 400*l.* per annum), in lieu of the surplus of land-tax, now restored to the fund for augmenting their small livings.	Houses are assigned to the dean and canons, which are in their occupation: the college keep the exterior in repair.	None.

ST. PAUL'S, LONDON. The chapter consists of the dean, who is also a canon residentiary, and three other canons residentiary. The dean and canons residentiary equally divide the surplus net revenues, after payment of stipends and allowances; the average sum so divided being 9048*l.* There are twelve minor canons, who have, collectively as a corporation aggregate, and individually as corporations sole, made their returns. There are also twenty-six prebendaries, who have separate revenues. [*For Names of the Chapter, see Table III.*]	11,140	1710	9049	Decrease expected, in respect of fines on renewals of leases, to the extent of 20*l.* per cent. per annum, on account of the depreciated value of the chapter estates demised by such leases. The net yearly income is expected to be reduced to about 8000*l.* The fabric is in a good and sound state. The fund for keeping it in repair is 20,000*l.* South-Sea Annuities, standing in the names of trustees. This fund, with the addition of the produce of woods, is considered to be a very slender provision for the repairs of so vast a fabric.	Houses are assigned to the dean and the other members of the chapter, who occupy them, and are bound to keep them in repair.	The dean has separate revenues in repect of his deanery, and also in respect of his prebend of Hoxton. The three residentiaries, who are respectively prebendaries of Consumpta per Mare Weldland, and Neasden, have also separate revenues.
ST. PAUL'S, LONDON (Warden and Minor Canons.) The corporation consists of twelve persons, who divide the net revenues equally. They have no houses assigned them for residence. [*For Names of the Minor Canons, see Table III.*]	155	3	152	The future average will be greater; as no renewals of leases have taken place during the three years ending 1831. The fines, communibus annis, are worth about 140*l.* per annum.	None.	They all have.
PETERBOROUGH. The corporation consists of the dean and six prebendaries. The fixed yearly stipend of the dean is 160*l.* per annum, and that of each of the prebendaries, 36*l.* There are four minor canons, who have each a stipend of 52*l.* per annum. The precentor has, for the offices of sacrist and librarian, 17*l.* 13*s.* per annum. The precentor has a house assigned to him for his residence. The minor canons have no houses assigned to them. The dean and six prebendaries divide the surplus net revenues equally among them; except that the dean receives two-eighths, and each of the prebendaries one-eighth, of the fines on the renewal of leases, court fines, seal fees, and a few other small payments. The sum divided, according to the above average, was 3918*l.* *Dean.* Very Reverend Thomas Turton, *D.D.*, 1830. *Prebendaries.* S. Madan, *D.D.* .....1800 | John James, *D.D.*....1829 J. S. The fabric has been usually repaired out of the corporate revenues of the dean and chapter, assisted of late by public contributions and considerable advances by the several members of the chapter; who have of late years done much, and are proceeding to do more, to add to the stability and ornament of the cathedral.	The dean and the six prebendaries have houses assigned to them, which they respectively occupy. Allowances from the corporate revenues have been made, as occasion required, for the substantial repairs of the deanery-house; and a small fixed annual sum is allowed from the revenues towards repairing the prebendal houses.	None.
ROCHESTER. The corporation is composed of the dean and six prebendaries. There are six minor canons, each of whom has a stipend of 30*l.*; the master of the grammar-school, 62*l.*; and the usher, 28*l.* The offices of sacrist and precentor are held by the minor canons in succession: the salary of each is 2*l.* per ann. All these sums are paid out of the general revenues of the dean and chapter. The master of the grammar-school, and minor canons, have separate houses assigned them, in which they reside. The repairs and other charges are borne by the dean and chapter. The dean and prebendaries divide the surplus net revenues as follows: the dean receives two-eighths, and each prebendary one-eighth. The average sum divided was 4809*l.* *Dean.* Very Reverend Robert Stevens, *D.D.*, 1820. *Prebendaries.* Hn. J. Marsham, *D.D.* 1797 | Archd. King, *M.A.** 1827 Hon. F. The church has been repaired within the last seven years, at an expense of above 14,000*l.* This expenditure far exceeded the fund which had been annually reserved for repairs; and the deficiency, amounting to 7500*l.*, was supplied out of the net produce usually divided by the dean and chapter. Considerable repairs remain to be done, which must be supplied out of the general revenues of the corporation.	Houses are assigned for the dean and each of the prebendaries, who are bound to keep them respectively in repair. The dean occupies his own house, and four of the prebendaries theirs respectively.	None.

SALISBURY. The corporation consists of the dean and six canons, who divide the net revenues, except fines on renewals, in the following proportions: two-eighths are received by the dean, and one-eighth by each of the six canons. The fines are equally divided, subject to the reservation of two and a half per cent. towards keeping the church in repair. There are four priest-vicars, who are a corporate body. (See below.) There are also forty prebendaries, who have their separate revenues. [*For Names of the Chapter, see Table III.*]	3176	377	2799	The net yearly produce of the revenues may be expected to decrease, on account of the reduced value of tithes, and of the lands let on renewable leases. A per-centage of 2½ is charged on all fines on the renewal of leases, in virtue of a statute, passed by the chapter about twenty-four years ago, for repairing the cathedral; besides which, the dean and chapter have regularly contributed an 8th part of their own fines in aid thereof.	Houses are assigned for the residence of the dean and other members of the chapter, which they occupy, and are bound to keep in repair.	They all have.

WELLS. The corporation consists of the dean, who is also a canon residentiary, and six other canons residentiary, who take equal shares of the surplus net revenue. The sums required for the repair of the fabric of the church are taken from the gross income, without any separate or appropriated funds.	The dean, in right of his dignity, has a residence not belonging to the chapter, which he is bound to keep in repair. There are five houses for the five senior canons residentiary, which they respectively occupy, and are bound to keep in repair. A house for the remaining canon will fall into hand at no distant period.	They all have.
WELLS (College of Priest-Vicars.) The corporation consists of four priest-vicars. The fabric of the church is repaired out of the general funds.	There is a house assigned to the dean and to each of the twelve canons, who occupy the same respectively. The corporation furnishes the materials for repairs.	None.
WORCESTER. The corporation consists of the dean and ten prebendaries or canons, who divide the surplus net revenue into twelve shares, of which the dean receives two, and the prebendaries one each; the average sum so divided being 8698*l.* The dean also receives a larger stipend from corn rents, &c. which gives him about 200*l.* per annum more than a double prebend. There are also eight minor canons, the yearly revenues of each of whom from his office, on an average of three years ending in November, 1832, is 34*l.*: in addition to which, the precentor receives 14*l.* 15*s.*; the schoolmaster, 39*l.* 19*s.* 6*d.*; the sacrist, 4*l.*; the librarian, 4*l.*; and the under-master, or usher, 28*l.* 1*s.* 5*d.* The schoolmaster and sacrist have houses assigned to them, which are occupied by them, and kept in repair by the dean and chapter. *Dean.* GEORGE, *D.D.* Lord Bishop of ROCHESTER, 1828. *Prebendaries.* James Meakin, *M.A.* 1804 — G. The cathedral requires continual repair; and the funds, which consist of all reserved rents, except corn rents and the greater part of copyhold fines, have been found insufficient for the purpose; and, latterly, the proceeds of an impropriate rectory of 800*l.* per annum, properly divisible among the dean and chapter, have been made an additional fund for this expenditure; but these provisions for repairs have not been found sufficient for several years.	Houses are assigned for the residence of the dean and other members of the chapter, which they occupy and keep in repair.	None.
YORK. The corporation consists of the dean and four canons residentiary; between whom and the church the surplus net revenue is divided, each taking a sixth share: the share of the church being reserved to discharge the salaries of the persons belonging to the choir. The average sum so divided was 1650*l.* There are also twenty-six prebendaries, having separate revenues, The clergymen who attend the daily services of the church are the subchanter and the vicars choral, who are five in number, and a corporation aggregate. (See next page.) [*For Names of the Chapter, see Table III.*]	1788	436	1352	An increase is expected of 570*l.* in respect of fines on renewals of leases, if the average of the next ten years should be equal to the average of the last ten years; but this supposition depends upon many contingencies. There are funds appropriated to the repair of the church, sufficient for that purpose.	The dean has a house belonging to the deanery, in which he resides, and which he is bound to repair. The four canons residentiary occupy a house belonging to the church, in which they dwell for the period of their respective residences, and for which they jointly pay a rent of 80*l.* per annum to the church, and also all taxes and assessments; which, on an average, amount to 63*l.* 16*s.* The residence house is kept in repair externally by the dean and chapter, and internally by the occupiers.	They all have.

MANCHESTER. The corporation consists of five members—a warden and four fellows. The surplus net revenues are divided into six equal parts, whereof the warden has two, and the fellows one each. The clerical officers of the college are the senior chaplain, junior chaplain, and clerk in orders. The two chaplains receive each from the corporation 17*l.* 10*s.*, and the clerk in orders 33*l.* 10*s.*, annually: the remainder of the chaplain's income arises from pew rents and church dues, and that of the clerk in orders from fees. They have no houses assigned to them for residence. The average sum divided was 3981*l.* *Warden, or Dean.* Very Rev. THOMAS CALVERT, *D.D.* 1823. *Fellows.* John Gatliff, *M.A.* 1798 | O. All repairs of the choir or chancel are paid out of the dividends of the warden and fellows.	There are houses for the warden and fellows, respectively, but unfit for their residence, and are let on repairing leases.	None.
MIDDLEHAM. The corporation, by charter, consists of a dean, six chaplains, four clerks, six choristers, and one clerk to administer Divine service; but there are now no chaplains, clerks, or choristers; the only two members of the establishment being the dean and the minister for Divine services and offices. The minister for Divine services and offices receives out of the revenues 120*l.*, and the dean the remainder. *Dean.* Very Rev. PETER S. WOOD, *D.C.L.* *Officiating Minister.* J. There is a house for the residence of the dean, which is occupied by the Rev. J. Cockroft, the minister for Divine service; but the dean is liable to keep it in repair.	None.
RIPON. The dean, the subdean, and eight prebendaries, compose the chapter. Previously to the order mentioned in a subsequent column, the division of the surplus revenue was made among the members present, the absent members taking no share, but it will be seen that a different mode of division has since been adopted. The dean has an annual stipend of 93*l.* 6*s.* 8*d.* as dean, and 70*l.* as residentiary. The sub-dean has an annual stipend of 35*l.*, and six prebendaries 23*l.* 6*s.* 8*d.* each. The precentor or minor canon also has an annual stipend of 14*l.*, and another minor canon 13*l.* 6*s.* 8*d.* After payment of these stipends or allowances out of the net income, the dean receives four parts of the surplus, the sub-dean three, and each prebendary two. The average sum so divided being 265*l.* *Dean.* Very Rev. JAMES WEBBER, *D.D.* 1828. *Prebendaries.* Thos Trebeck, *M.A.* 1805 | Wm. Gray, *M.A.* 1828 Wm.H. Dixon, *M.A.* 1815 | Robt. Sutton, *M.A.* 1828 P. W. Worsley, *M.A.* 1827 | G. H. Webber, *M.A.* 1829	804	171	633	It is considered that the fines on the renewals of leases, except one or two, cannot be much augmented, if at all: the copyhold fines, for the last three or four years, have been more than ordinarily productive. But should the right to small tithes which is now resisted, be established, there will be an increase of 150*l* per annum for the next five years, & afterwards (partly from the renewal of leases) of 300*l.*; but subject to the regulation mentioned below. The fabric still stands in need of repairs, though much has been laid out upon it. To this object there are certain appropriated lands and tenements, the income of which, together with pew-rents and other appropriations, have proved insufficient. To supply this want, it was determined that in future the surplus revenues should be divided into nineteen fixed shares, and that the fixed share of any absent member should go to the fabric account; and, further, that whenever the sum to be divided should exceed 342*l.*, the overplus should be carried to the same account; and that these provisions should continue until there should be sufficient monies to meet the ordinary as well as casual demands for repairs.	There is a house assigned for the residentiary, whoever he may be—dean, sub-dean, or prebendary—but the dean has the option, which house is kept in repair out of the fabric fund. The dean usually has been, and now is, the residentiary and occupier.	None.

SOUTHWELL.	£.	£.	£.			
The chapter consists of sixteen prebendaries, who keep residence in rotation each for three months, and are entitled to an allowance of 85*l.* each towards the expenses of such residence: at the end of each rota, being a term of four years, a division of the fines received for renewals during that period, after deducting the customary payments and allowances, is made in equal portions among the prebendaries. There is a vicar general and commissary, whose net yearly revenue is 13*l.* 0*s.* 7*d.*; and six vicars choral, who are entitled on an average to 25*l.* per annum each out of the chapter revenues. The prebendaries divide the surplus net revenue equally among themselves. Five of the vicars reside in houses assigned to them, and the sixth in a house which he occupies as vicar of Southwell. [*For Names of the Chapter, see Table III.*]	2211	1119	954	The net yearly produce is considered as higher than the probable average amount for the future; there having been, a short time ago, an extraordinary fine upon a lease which had been neglected to be renewed at the customary period. Looking to the average of the five preceding rotas, it may be presumed that the future dividends will be much less than heretofore.	There is a good residence house for the family of the prebendary whose turn it is to keep his quarterly residence; and there are four houses adjoining it, called the vicars' court, which are occupied by four of the vicars choral, and which were built at the expense of the chapter in 1784; and in 1821 the chapter rebuilt the house occupied by the master of the free-school, who is one of the vicars choral.	They all have.
WESTMINSTER. (including the School.) The corporation consists of the dean and twelve prebendaries. After deducting from the fines the surveyor's charges and certain other outgoings, one-fifteenth of the remainder is given to the fabric, and the surplus is applied as follows: one-tenth is deducted to secure 200*l.* per annum out of the dividends of the dean, and 100*l.* per annum out of the dividends of each of the prebendaries, to the members of the choir; and after such deduction, two-fourteenths of the residue is received by the dean; and out of the final remainder 60*l.* is divided among the prebendaries present at the sealing of the leases, and the rest into twelve equal parts, one for each of the prebendaries. The other sources of revenue are shared by the chapter equally, except that the dean has generally a duplicate portion. His statutable stipend and allowances amount to 282*l.* 10*s.* per ann. The stipend of each prebendary is 28*l.* 5*s.* The dean has also a fee of 2*l.* for a funeral, and each prebendary 10*s.*: in the case of a peer or peeress, the dean has extra 18*l.*, and the sub-dean 6*l.* 10*s.*; besides which, the dean has a fee of 1*l.* for a monument in the abbey, when the party is not interred there, and each prebendary 5*s.* There are six minor canons, of whom one is precentor, whose incomes amount in the whole to 761*l.* 5*s.* 4*d.* The surplus net revenue, according to the said average, after payment of all stipends and allowances, was 19,543*l.* *Dean.* Very Rev. There are houses assigned for the dean and all the prebendaries: the deanery is occupied by the dean, and three prebendary houses are occupied by the prebendaries respectively, to whom they are assigned. The dean and chapter keep the houses in repair.	None.

WINDSOR. The corporation consists of the dean and twelve canons, who share the surplus income, after all payments and allowances, in equal portions: the average sum divided between the dean and canons being 17,819*l.* There are also six minor canons, all of whom have an income of 79*l.* 12*s.* 5*d.*; two of the number receive in addition, for extra duty, 8*l.* 15*s.*, making their salary 88*l.* 7*s.* 5*d.*; and the remaining one receives, in addition to his regular salary, two sums of 8*l.* 15*s.* and 4*l.* 18*s.* for extra duties, making a total of 93*l.* 5*s.* 5*d.* *Dean.* Hon. and Very Rev. Packe, *M.A.* 1821	22,475	3095	19,380	The average of the fines for the three years, ending 1831, was much higher than the average of the three preceding years, ending 1828. The average of the *seven* years, ending Michaelmas, 1831, was less by 3934*l.* 10*s.*; and it is therefore expected that the amount will in future be greatly reduced. The expenditure will be much increased by the augmentations lately made to poor livings in the patronage of the corporation.	There are houses assigned to the dean and other members of the chapter, which are kept in repair partly by themselves individually, and partly by the chapter; the dean and canons paying the taxes. All the minor canons have houses assigned to them for their residence, in which those of them who have not livings constantly reside.	The dean alone has separate revenues; the deanery of Wolverhampton and the rectory of Haseley being annexed to the deanery of Windsor. (See Wolverhampton, below.)
WOLVERHAMPTON. The college consists of the dean, who holds the prebend of Wolverhampton, and seven other prebendaries. There is also a principal canon, an official, chapter clerk, and registrar. By a grant of Edwd. IV. and subsequent grants, the deanery and prebend of Wolverhampton were annexed to the deanery of his free chapel of St. George, within the castle of Windsor. The dean receives the whole revenues. [*For Names of the Chapter, see Table III.*]	641	...	641	The amount of income depends upon renewals of leases for lives, and upon the uncertain produce of the coal mines, for which the dean receives a proportionate payment called the royalty. One-fourth of the profits of the royalty arising from mines is annually invested in the Consols, in order to create a fund of 8000*l.* for the endowment of the perpetual curate of Wolverhampton, who receives the dividends as they arise.	None	The seven prebendaries have separate corpses or estates, in right of their dignities, respectively.

Thames Ditton R.	1878	350	Surry	*Winton*	Surry	W. Ellis	1793	290	King's Coll. Cam.	

EXPLANATION OF THE ABBREVIATIONS IN THE LIST OF BENEFICES.

The reader is again requested to bear in mind (see Advertisement) that the *net revenue* of each Benefice is subject to deduction where the services of a Curate are required; and the Table of the Incomes of Incumbents and Curates will shew the amount in each Diocese which the net revenue of Benefices is subject to, for payment of the stipends of Curates.

R. for *Rectory*—*V.* for *Vicarage*—*P.C.* for *Perpetual Curacy*—C. for *Chapelry*—*Don.* for *Donative*—*D.R.* for *District Rectory*—and *D.C.* for *District Chapelry*,—the two latter being such parishes as have been divided into Ecclesiastical Districts by the Commissioners for Building Churches and Chapels, by virtue of power granted to them by Parliament for that purpose.

Where this + is prefixed to the value of the Dignity and Benefice, it denotes that there is a Glebe House attached, fit for residence.

Wherever practicable the population and accommodation in Chapelries are inserted separately; and when the Name of the Chapelry is inserted with the Mother Church, the population and accommodation of the Mother Church is only intended.

N.B. A line —— in either of the columns always refers to the Name or Word immediately above it.

Benefices in the *City of London* and the parishes of *Bloomsbury, St. Giles in the Fields, St. Pancras*, and *St. Marylebone*, will be found under the letter *L*; *Southwark* under *S*; and *Westminster* under *W*.
